

THE ENFYS

DISTANCE

Lets face this challenging time oh yeah
Come on and help each other now
Stay home it's the best you can do
Be strong we'll find a way out

A few months ago no one had thought
This situation would change everything
All the well known and beloved disappears

Keeps my whole world on edge
Keeps my whole world on edge
Keeps my whole world on edge
Keeps my whole world on edge

No one is safe - no one can hide
The effects are directly felt by everyone
It's not about loosing or crying
It's not about blaming or fighting
Everyone has to deal with it
Everyone has to walk that way
But it's about looking forward
To all good things to come

Keeping distance is unusual for us
But it's the time now to go through
Community is our natural good
the more distance the harder it gets

It's never been that lonely before
People crying people are running
Is there nothing we can do?

Is it the truth?
Is it the truth?
Is it the truth?
Is it the truth?
Is it the truth?

No one is safe - no one can hide
The effects are directly felt by everyone
It's not about loosing or crying
It's not about blaming or fighting
Everyone has to deal with it
Everyone has to walk that way
But it's about looking forward
To all good things to come

Distance means close means distance means close
means distance, means distance, means distance, means close

No one is safe - no one can hide
The effects are directly felt by everyone
It's not about loosing or crying
It's not about blaming or fighting
Everyone has to deal with it
Everyone has to walk that way
But it's about looking forward
To all good things to come
To all good things to come
To all good things to come
